## **Clinsys<sup>®</sup> Redefines Resource Services with the Launch of Clinsys ALTERNA<sup>™</sup>**

**BEDMINSTER, NEW JERSEY (April 10, 2008)** - Clinsys Clinical Research, a therapeutically focused global contract research organization, today announced the launch of Clinsys ALTERNA, which utilizes its Global Project Solution<sup>®</sup> (Clinsys GPS<sup>®</sup>) to augment clinical resource services. The new division demonstrates Clinsys' commitment to aligning its service offerings with its sponsors' and the life sciences industry's continuously evolving staffing needs.

Clinsys ALTERNA provides customized Phase I-IV clinical trial alternative solutions to the conventional outsourcing model. The division is a core element of Clinsys GPS, a unique, highly effective and proven integrated project management solution that brings the sponsor and the Clinsys project teams together to collaborate and agree on all aspects of the clinical study—before, during and after—to ensure the project's success.

"Clinsys ALTERNA provides a targeted and flexible clinical resourcing model that adapts to best serve a sponsor's trial management needs," said David E. Williams, Chief Executive Officer of Clinsys. "We devoted the time and energy required to approach the evolution of resourcing in an innovative way that both maximizes efficiencies and decreases deliverable timelines."

Drawing on extensive clinical research experience, Clinsys ALTERNA delivers a custom-designed, time-sensitive clinical solution that enables sponsors to engage its services in site management, clinical monitoring, project management, drug safety, regulatory and medical writing on a contract basis. Clinsys ALTERNA combines therapeutic expertise, clinical screening, performance reviews, site references and global reach to offer clients the most dependable and comprehensive alternative approach to their trial needs. Visit [clinsysalterna.com](http://clinsysalterna.com) for more information.

### **About Clinsys Clinical Research, Inc.**

Clinsys Clinical Research, Inc.<sup>®</sup>, is a therapeutically focused clinical research organization and a Jubilant Organosys company headquartered in Bedminster, New Jersey.
