### **CLINSYS CLINICAL RESEARCH, INC. EXPANDS GLOBAL OPERATIONS: ANNOUNCES OFFICES OPENING IN RALEIGH, NORTH CAROLINA; DUSSELDORF, GERMANY AND GENT, BELGIUM**

BERKELEY HEIGHTS, NEW JERSEY | 18 June 2007 - Clinsys Clinical Research, Inc., a therapeutically focused Clinical Research Organization, today announced the expansion of its United States and European operations by opening offices in Raleigh, North Carolina; Dusseldorf, Germany and Gent, Belgium.

"I am excited that our growth and need to service more of our sponsors' global requests has required that we expand our United States and European operations," said David E. Williams, Chief Executive Officer of Clinsys Clinical Research. Mr. Williams continues, "We have selected these locations as they are central to our sponsors, have a strong employee talent pool to choose from and provide easy access to both Western and Eastern Europe. These expansions will allow Clinsys to offer a full range of clinical trial services in support of global as well as local clinical trials."

"Clinsys will continue to expand and open offices in both the United States as well as Europe in accordance with our growth plans and in response to sponsors' needs. To that end, we are currently exploring locations within New Jersey to increase the operational facility of our corporate headquarters," said Mr. Williams.

*About Clinsys Clinical Research, Inc.*

Clinsys Clinical Research™, Inc., a therapeutically focused Clinical Research Organization is a Jubilant Organosys company, headquartered in Berkeley Heights, New Jersey. Clinsys has multiple offices in the United States, India and Europe, offering pharmaceutical and biotechnology companies a broad range of clinical research services in support of Phase I - IV drug development: project management, medical and clinical monitoring, investigator and patient recruitment, site management, biostatistics, data management, drug safety, quality assurance, regulatory affairs and medical writing services. Clinsys has expertise in a wide range of highly specialized therapeutic areas including oncology, cardiovascular, central nervous system, dermatology, respiratory, and allergy/immunology. Clinsys Clinical Research, Ltd., with operations in India, provides extensive clinical research services for Phase I - IV drug development, and operates a clinical pharmacology unit which performs bioavailability and bioequivalence studies as well as bioanalytical sample analysis, clinical laboratory and pathology services. Targeted Clinical Staffing Solutions™ (TCSS - gotcss.com), a division of Clinsys Clinical Research, Inc., is a provider of professional staffing solutions and innovative partnering programs for the life sciences industry.
