CLINSYS CLINICAL RESEARCH, INC. ANNOUNCES KEY HIRE, HARTMUT SCHMIED, MD, TO STRENGTHEN EUROPEAN SERVICE OFFERING AND GLOBAL CARDIOVASCULAR THERAPEUTIC STRATEGY

BERKELEY HEIGHTS, NEW JERSEY August 13, 2007 - Clinsys Clinical Research, Inc., a therapeutically focused clinical research organization, today announced the appointment of Hartmut Schmied, MD as Vice President, European Operations, based in the company's Düsseldorf, Germany facility.

"I am excited to have Dr. Schmied, a highly experienced professional in the field of cardiovascular clinical research join the Clinsys team. Dr. Schmied will have direct responsibility for Clinsys' European clinical research operations and will also head up our Cardiovascular Therapeutic Area," said David E. Williams, Chief Executive Officer of Clinsys Clinical Research. Mr. Williams continues, "The addition of Dr. Schmied, who brings both substantial clinical and management expertise, will be extremely beneficial in continuing to establish Clinsys as a global industry leader."

Before joining Clinsys, Dr. Schmied was Executive Director of European Operations for Medifacts International, as well as Global Head of Clinical Research, where he had overall day to day responsibility for all CRO activities in the United States, Europe and China. Prior to Medifacts, he held a number of senior management positions in clinical development for Bayer AG. Dr. Schmied received his Doctorate of Medicine from the University of Cologne, Germany and a certificate in Pharmaceutical Medicine from the European Confederation of the Upper Rhine Universities in Basel, Strasbourg and Freiburg.

"Providing our sponsors the most qualified professionals to ensure the successful completion of their clinical development programs is our driving force. Therapeutic expertise combined with a complete understanding of the drug development process from the CRO and the sponsor's view is critical to ensuring our sponsors a successful clinical trial. Clinsys' therapeutic area teams have played key roles in advancing treatments in Oncology, CNS, Cardiovascular and Dermatology. The addition of Dr. Schmied will be a key factor to our evolving success," said Mr. Williams.
