CLINSYS CLINICAL RESEARCH, INC. ANNOUNCES KEY HIRES, RAJAGOPALAN SRINIVASAN, Ph.D., TO STRENGTHEN GLOBAL BIOSTATISTICS SERVICE OFFERING AND CHRISTOPHER GREGORY, Ph.D., TO SCIENTIFIC AFFAIRS

BERKELEY HEIGHTS, NEW JERSEY / RALEIGH, NORTH CAROLINA, September 10, 2007 - Clinsys Clinical Research, Inc., a therapeutically focused clinical research organization, today announced the appointments of Rajagopalan Srinivasan, Ph.D. as Vice President, Global Biostatistics and Christopher Gregory, Ph.D. as Scientific Affairs - Director.

"I am excited to have Drs. Srinivasan and Gregory, both highly experienced professionals in their respective fields in clinical research, join the Clinsys team," said David E. Williams, Chief Executive Officer of Clinsys Clinical Research. Mr. Williams continues, "Dr. Srinivasan, who will head up our global biostatistics service offering, brings substantial expertise in biostatistics directly relating to our key therapeutic areas of Oncology, Cardiovascular and CNS. Dr. Gregory, who will serve as a senior scientific advisor for our clinical project teams, brings a wealth of direct pharmaceutical research development and academic experience to support our global regulatory and scientific affairs services."

Dr. Srinivasan has over 25 years of experience in biostatistics with regulated drug industry and medical research, including 10 years working at the FDA. He has held a number of senior management positions in the drug development industry, most recently as Vice President, Global Biostatistics with a global clinical research organization. During his tenure at the FDA, Dr. Srinivasan provided statistical guidance to regulated industry in each step of drug development (Pre-IND, IND, End of Phase II, pre-NDA, NDA as well as post-marketing Phase IV commitments). Dr. Srinivasan has taught Biostatistics/Statistics at the George Washington University, Washington, DC and is currently an adjunct Professor of Biostatistics at University of Virginia, Charlottesville, Virginia. He received his B. Sc. (Honors), M.A. and M. Phil. degrees in Statistics from the University of Madras in India; his Masters in Biostatistics from Florida State University, Tallahassee, Florida and his Doctorate in Biostatistics from the University of Georgia, Athens, Georgia.

Dr. Gregory has over 15 years of biotechnology/pharmaceutical and academic experience. Prior to joining Clinsys, he served as Vice President, Research for Voyager Pharmaceutical Corporation in Raleigh, North Carolina. While at Voyager, he was responsible for directing all internal research programs and advising on external programs as they related to indications in CNS and Oncology, provided management of their laboratory and scientific teams, provided guidance in product development and participated in authoring patent applications as an inventor. Dr. Gregory was a Research Assistant Professor in The Laboratories for Reproductive Biology; Research Assistant Professor in the Department of Surgery,

Division of Urology; Assistant Professor and currently serves as Adjunct Assistant Professor in the Department of Pathology and Laboratory Medicine at the University of North Carolina at Chapel Hill, North Carolina. He earned his Doctorate in Anatomy at Ohio State University in Columbus, Ohio and a Bachelor of Science Degree in Biology at Concord College in Athens, West Virginia.

"We continue to strive to provide our sponsors with the most complete service offering and the most qualified professional team in the industry, with our primary goal of ensuring the successful completion of their clinical development programs. Therapeutic expertise combined with a complete understanding of the drug development process from both the CRO and sponsor perspective, coupled with the highest level of service and quality is absolutely essential in attaining that goal. The addition of Drs. Srinivasan and Gregory to our high performance team will ensure that success," said Mr. Williams.

About Clinsys Clinical Research, Inc.

Clinsys Clinical Research, Inc.[®], is a therapeutically focused clinical research organization and a Jubilant Organosys company, headquartered in Berkeley Heights, New Jersey. Clinsys has operations in Raleigh, North Carolina; Philadelphia, Pennsylvania; Düsseldorf, Germany; Gent, Belgium; Noida and Bangalore, India.
